Govt.THSL,Haripad
SCORE : 98%

Objective

To work an environment that can provide me the opportunity to improve my skills and knowledge to along with the organization.

My Projects

• The Movie DataBase.

It is a webapplication that built in NextJs to show the movies around the globe.

It includes features such as user login, signup, searching for the movies ,fetching the details such as name,overview,trailers,ratings etc for each movie and adding themovies to users favorite list.

• Real-Time Crypto Currency Monitoring

It is web application built in Next js to show the live updation of the crypto currency with the help of the coingecko API and socket IO connection. Its allows users to search the trending coins.

It shows the details such as sparkline, current price, conversion of the price to the user preferred currency .

• Real-Time Chatting Application

It is a web application that built using MERN stack and socket io connection for the realtime updation of the messages. It allows users to manage the contacts in the list. start a new chat with the desired user.It stores the messages in the database for each users.

Declaration

I hereby declare that all above mentioned informations are true to the best of my knowledge and belief.
