

Dear Aysha,

Subject: Project Estimation for E-commerce Website Development.

I am excited to present the project estimation for developing your e-commerce website using the MERN stack:

Design and development of a fully functional e-commerce website with essential features like product listings, shopping cart, user authentication, payment gateway and order management. Payment gateway can be done in RAZOR PAY / STRIPE.

Cost Breakdown

- Domain purchase: **\$20/year (1657/- /year)**
- Database: **(The pricing is considered according to the usage. We can you free databases for the implementation and also can be upgraded when the usage is high.)**
- Hosting server (monthly plan): **\$24/year (1989/- /year)**
- Labor charges:Base amount: **28000/- (Depends on the complexity of the development)**

Total Estimated Cost: 30000/- to 45000/- (Cost may vary from this range until the development is completed.)

Terms

- 50% payment upfront, remaining upon project completion.
- Additional features may incur extra charges.
- The time for the development is depends upon the complexity. (Minimum 2 ½ months)

We're committed to delivering a top-notch website. Please let us know if you have any questions.

Sincerely,

Kasinathan B
